

Reference Projects

Edit: Dietmar Ehlert

Id-No.: 2019-01

Date: 15.01.2019

Projects	Function	Industry	Period of Time
Plant Engineering, conveyor system Offsite-Management, Engineering Extension	Project Management Basic Engineering, Commissioning Coordination	Logistics	2018
Plant Engineering, conveyor system EI&C Technology, Automation, Modernization	Project Management Automation, Basic Engineering, Project supervision, Commissioning Coordination	Logistics	2015-2017
Migration S5/S7 Control system EI&C Technology, Automation, Modernization	Project Management Project engineering, Basic Engineering, Tender documents.	Limestone plant	(currently), since 2016
Electrical safety switch-gears	Project Management Tender documents Reference unit	Limestone plant	2016
Migration S5/S7 Control system EI&C Technology, modernization	Project management Actual recording, P & I drawing, Object list, Basic engineering	Limestone plant	2015
Plant engineering, Power plant, Flue gas desulphurization plant EI&C Technology	Project Management Project engineering and Basic Engineering	Power plant, Plant engineering	2014-2015
Plant Engineering EI&C Technology, Automation and power distribution	Project Management Project engineering and Engineering	Cement plant, Plant engineering	2013-2014

Projects	Function	Industry	Period of Time
Head of the Competence Center Electrical Engineering and Automation	Interim Manager Restructuring and Reorganization	Shipbuilding industry	2012
Diesel-Power plant, various Quality Management	Verification of functional safety and adjustment to CE conformity of complete systems.	Power plant, Plant engineering	2011
Diesel Power plant, Costa Rica Project engineering, Engineering	Project Management Engineering Coordination and Project control	Power plant, Plant engineering	2009-2011
Optimization of electrical assembly projects	Development of assembly planning tool for electrical equipment.	Timber sector, Plant engineering	2009
Oil and gas, Algeria Flare gas recycling and new instruments	Plant layout planning, budgeting for electrical equipment and process control	Oil and gas, Plant engineering	2009
Preservation facility, Russia Project engineering, Engineering	Project control and basic engineering for electrical equipment and process control	Plant engineering	2007-2008
Production Optimization	Study on optimization of production process	Packaging sector	2007
Process Optimization	Modeling of gas washing water cycle	Steelworks	2006-2007
Process Engineering	Revision of plant documentation	Chemical sector	2006
Wasser Conservation	H ₂ S / H ₂ O ₂ optimization Study on the design of measurement technology	Mining sector	2006

Projects	Function	Industry	Period of Time
Process Control Engineering	Basic Engineering and project engineering, Process control system	Power plant	2006
Production of Industrial lights, Ukraine	Market analysis for LED technology marketing	LED production	2006
Process Engineering	Project Engineering for a palletizing system	Chemical sector	2006
Production Optimization	Basic Engineering and project outline for automation of a header feed system	Automotive supplier	2005-2006
Production Optimization	Project Engineering for laser feed system, basic engineering and project outline	Automotive supplier	2005-2006
Process Engineering	Project Engineering to design handling systems for direct-from-drum feed systems and filling systems	Chemical sector	2005
Process Engineering	Pre-project Engineering for modernization of malt cleaning process	Food sector	2005
Production	Pre-project Engineering for automation of folding and packaging units	Textile sector	2005
